Multi-Voucher Tickets - A Demanding Market

The demand for multi-voucher pre-paid tickets is increasing continuously. Depending on the card format 5, 10, 12 or more vouchers can be placed on one entire card which offers new possibilities for the card users.

Typical or special multi-voucher card personalization processes:

- Printing PIN number, serial number, expire date etc.
- Scratch-off hotfoiling (horizontal or vertical positioning)

Multi-voucher card applications make higher demands of card production in general and card production machinery in particular. The CARDLINE system can be adapted to cover different card formats and enable flexible placing of multiple horizontal or vertical positioned scratch-panels onto the ticket.

CARDLINE Modification Kit for Multi-Voucher Tickets Production

Atlantic Zeiser makes it easy: By offering a modification kit for your existing CARDLINE an easy adaptation to the multi-voucher ticket production requirements can be put into effect still using the outstanding CARDLINE system performance.

Our expertise for your benefit:

- Large card formats → up to 20 single vouchers in one ticket
- Max. single hotfoil area 30 mm; expandable to 60 mm with second hotfoil unit
- Vertical or horizontal hotfoiling
- Trouble-free retrofit due to high skilled service technicians

Find out more about the possibilities of multi-voucher ticket production with Atlantic Zeiser and use the expertise of the leading card personalization system provider.

Multi-voucher modification kit of existing CARDLINE with single or double hotfoil application

- Transport chain with larger pitch
- Counter-pressure wheel and complete shaft
- Cog-wheels for hotfoil module and drive (two cog-wheels if hotfoil area > 30 mm)
- Brackets, gears for encoder
- Small modifications on hotfoil unit i.e. temperature sensors etc.
- Modification of waste-box (larger size)
- Modification kit for feeder
- Special stamping wheel (die)
